

JENNIFER PALLIN
School of Public Health

Conferences Attended:

International Symposium for the Diabetic Foot, 10th – 13th May 2023, The Hague - The Netherlands.

While attending this conference I had the opportunity to present 4 posters presentations and 1 oral presentation to an international audience who provided me with invaluable feedback on my PhD work, and how to improve my work as I enter the final year of my PhD. I also developed collaborative links that are imperative to my PhD and future career, and will now visit and carry out a collaborative piece of research with the leading centre of excellence in diabetes care and research, and opportunity I would not have had, had I not attended the conference.
