

MALITHA MONIS

School of Nursing & Midwifery

Conference Attended:

The 21st Congress of the Nordic federation of Midwives, Reykjavik, Iceland, 2-4 May, 2019.

The conference with the theme: “Midwifery across borders” was focused on how midwifery care is carried out in different countries of the world. This gave me an opportunity to present my research work to the wide audience and to get their feedback on the topic, and this will be great use for my viva.

It gave me a chance to learn about the gaps in the same area to reduce interventions and to promote normalcy in pregnancy and childbirth. It also steered me to create new international research links which could lead to future collaboration.
