

## **NIAMH COAKLEY** **School of Medicine**

### **Conference Attended:**

AMEE (An International Association for Medical Education) Annual Conference 24th -28th August, Vienna, Austria.

Thank you to the Graduate School in the College of Medicine and Health for awarding me this travel bursary. The AMEE annual conference is a key meeting for all involved in medical and healthcare professions education including teachers, educationists, researchers, administrators and students, attracting over 3000 delegates annually. I was grateful for the opportunity to represent University College Cork in presenting my doctoral research, to network with international colleagues, participate in workshops and to learn from the presentations of experts in medical and health professions education.
