

# What am I here to do?

Support a deeper engagement with sustainability and the green agenda amongst UCC students, using our open green spaces as a vehicle for change

Support students to lead community engagement in green spaces and food-growing initiatives in the local neighbourhood (train-the-trainer)

Supporting all students in UCC to engage with sustainability and climate action in a meaningful and positive way

# "Train the trainer," programme

## Paid Internships:

- UCC Community Gardener
- UCC Green Spaces Engagement Officer

## Leaders/Champions:

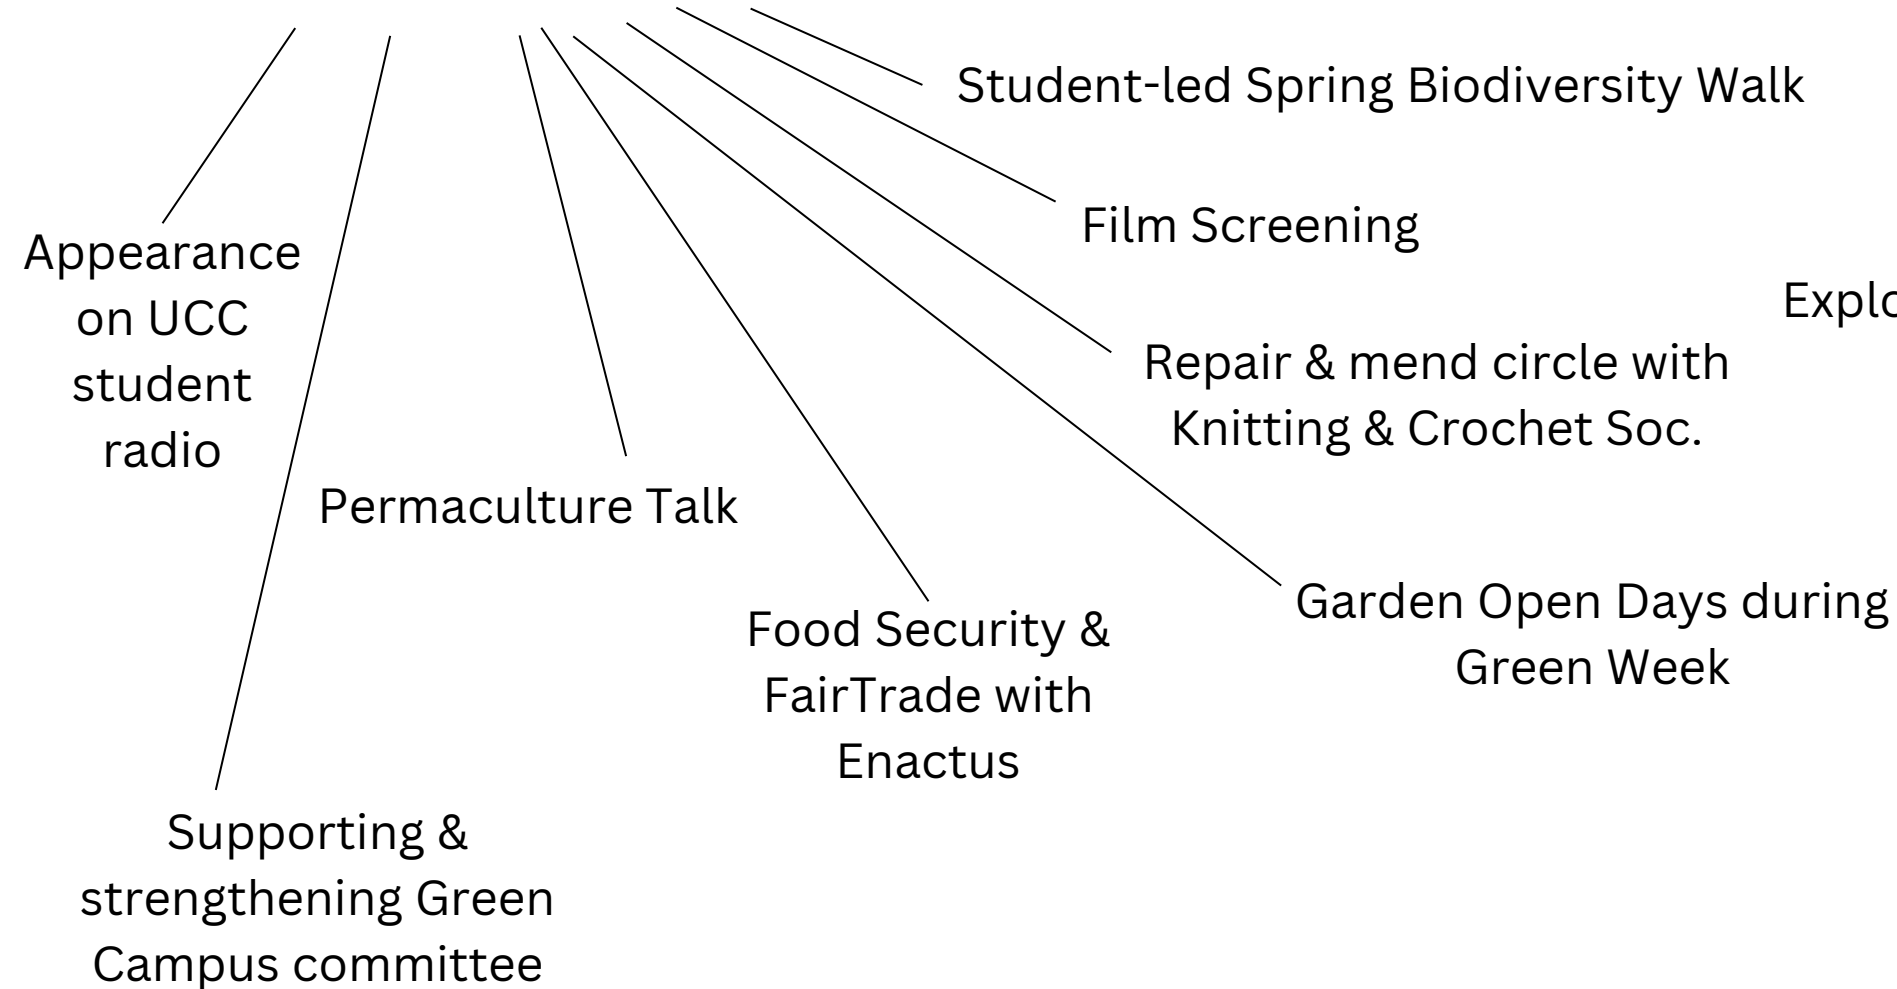

- Edible Campus
- Nature and Wellbeing
- Arboretum
- Climate Change
- Biodiversity

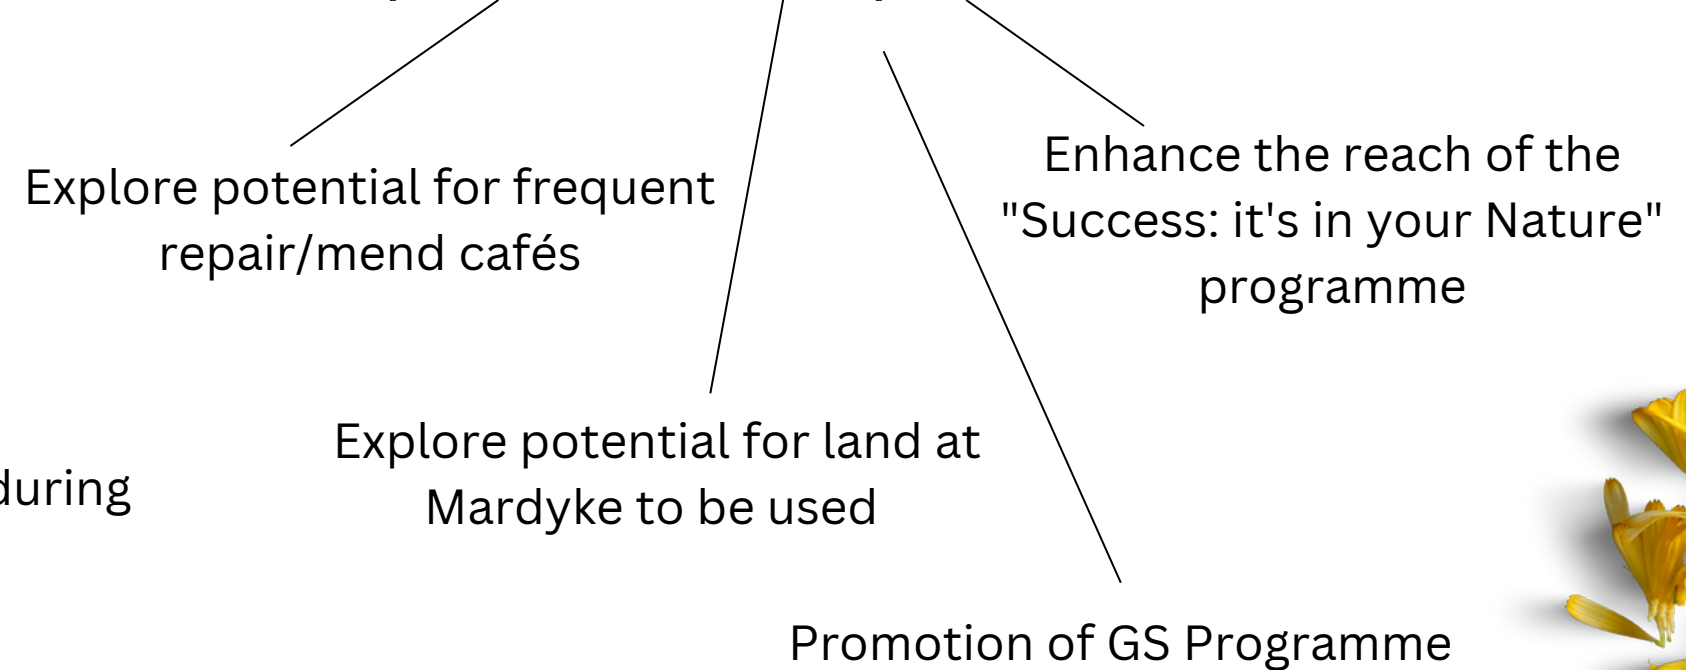

# In the short-term

Collaborate with students, societies and staff on student-led events and projects; give focus to the garden, other edible campus elements and green spaces; familiarise myself with staff and structures

# Long-term actions

Build strong "train-the-trainer," programme to ensure longevity of Greenshoots; establish and cultivate relationships with key staff and students interested in GS; continue to collaborate with students on events; monitor and evaluate progress and KPI's; promote and publicise GS etc.

# Monitoring & Evaluation

KPI's:

- Number of students trained as champions
- Number of students who take part in projects and activities
- Number of campus food growing initiatives
- Number of local community growing projects/initiatives
- Student knowledge of sustainability/climate action before and after engaging

*Míle buíochas libh!*

Irene Ní Shúilleabháin, Greenshoots Coordinator
