

MSc HUMAN ANATOMY

WHY CHOOSE THIS COURSE?

The MSc in Human Anatomy is a 1 year full time programme which is uniquely designed to provide advanced training in clinically applied human anatomy.

This is the first taught MSc in Human Anatomy in Ireland. With a large cadaver-based dissection component, this programme provides participants with a unique and exceptional opportunity to develop their dissection and anatomical knowledge based in a state-of-the-art human anatomy research facility.

WHAT YOU WILL LEARN

SEMESTER I

Human Gross Anatomy I **(15 credits)**

Human Embryology **(10 credits)**

Anatomy Pedagogy **(5 credits)**

SEMESTER II

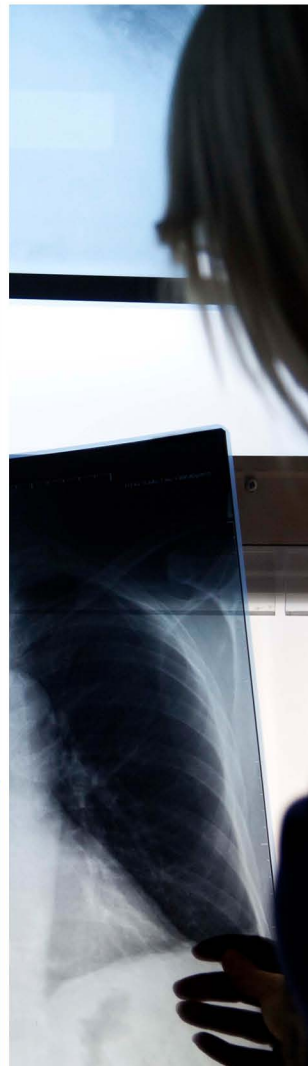

Human Gross Anatomy II **(15 credits)**

Neuroanatomy **(10 credits)**

Radiological Imaging **(5 credits)**

SEMESTER III

Research Dissertation **(30 credits)**

TRANSFORM YOUR CAREER

The MSc in Human Anatomy will enhance the application profile of graduates furthering their career paths. Graduates will be equipped with skills that enable them to excel in careers in anatomical sciences including teaching and technical positions. Applications by medical graduates seeking positions on clinical schemes will be enhanced by the advanced skills and knowledge gained on this course. Occupations associated with an MSc in Human Anatomy include:

- Medical demonstrator
- Instructor
- Teaching fellow
- Prosector
- Technician
- Lab-based career in the medical device industry
- Medical illustrator

ENTRY REQUIREMENTS

Applicants will be required to hold an Honours Degree (NFQ level 8) with a minimum second class honours grade 2 (or equivalent) in a subject related to that of the MSc programme such as but not exclusively to; medicine, healthcare, nursing, biomedical, bioengineering, pre-med or any biological science.

If you are applying with qualifications obtained outside of Ireland and you wish to verify if you meet the minimum academic and English language requirements for this programme, please visit:

www.ucc.ie/en/study/comparison

HOW TO APPLY

Apply online via the Postgraduate Applications Centre: www.pac.ie/ucc

For full details of the NON-EU application procedure, please visit:

This MSc in Human Anatomy is just a great combination in having enough theoretical knowledge and practical skills to excel in the future career. I am very impressed with the design, layout and content of this course as it allowed me to do a full body dissection from head to toe. We are very lucky in that we have a small class size, so it becomes more of a group learning experience and this has really improved a lot of our teamwork skills. The staff are all friendly and encouraging. Once you live in Cork, you would be fortunate to call it HOME. People have welcoming attitudes and will surround you with family spirit whenever you miss home.
