HRB Postdoctoral and PhD Fellowships

Trinity College Dublin

School of Medicine
Drug Development
Trinity College Dublin Dublin, Ireland

Elucidating the roles of CNS expressed S1P1 receptors in Alzheimer's and Krabbe Diseases.

Applications are invited for one Postdoctoral Fellowship and two PhD Fellowships, funded in part by the Health Research Board, Ireland (HRB) and by industrial funding, to commence immediately.

The project will investigate the use of S1P1 receptors as drug targets in animal models of Alzheimer's and Krabbe Disease. A range of behavioural and motor function tests will be used to study these effects. Candidates with expertise in animal behavioural studies are highly encouraged to apply.

These projects will be supervised by Professor Kumlesh K. Dev (Drug Development, School of Medicine, Trinity College Dublin, Ireland).

Applications are welcome from motivated candidates who possess a degree in Neuroscience, Biochemistry, Genetics or Immunology.

Please contact Prof. Kumlesh K. Dev for further information (devk@tcd.ie)

To Apply Send:

- a short cover letter outlining level of expertise in animal studies
- 2 page CV with previous and current positions and publication list

Please send to
Prof Kumlesh K. Dev
