WELCOME TO THE DEPARTMENT OF GOVERNMENT

Welcome to University College Cork and to the Department of Government.

The Department of Government provides an energetic and supportive learning environment for visiting students interested in political science.

The Department is known for its student-friendly approach to education, active research record and national profile in Ireland. Its teaching programme includes modules on Irish politics, political corruption, citizenship and political economy. Other subjects popular with visiting students are international political systems, human rights and the politics of the European Union. A full list is set out in this handbook.

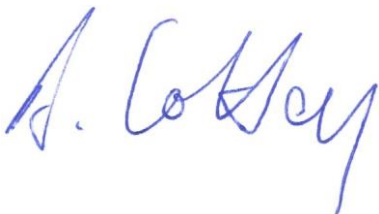

The Department has an expanding research and publishing agenda. Staff members regularly publish in international journals. They have produced a number of books and are involved in EU and other externally funded research programmes.

The Department of Government aims at enhancing the overall educational and cultural experience of visiting students with modules are designed to maximize contact with Irish students majoring in politics and/or business.

Visiting Students are welcome to join the Government and Politics Society, which is the Department's student society. It organises events throughout the year, including debates, guest speakers and the annual Government and Politics Society Ball, which is held during the spring semester.

Again, welcome to the Department of Government. We hope you enjoy your stay in UCC.

Best wishes

Dr Andrew Cottey
Head of Department

COURSE WORK AND ASSIGNMENTS

Over the course of the semester/year, you will have regular assignment work in your modules. A high quality of written English and presentation is required as well as comprehensive and analytical pieces of work, which address the question at hand. Lecturers will keep you informed of their requirements as the year progresses but you should adhere to the **Referencing Guide**, which is available from the Department of Government. The university grading system will be new to you and very different to what you have been used to in your studies, particularly in the USA. You should note the distinguishing characteristics between the various grades, which can be awarded. Please ask lecturers for more information about this.

Grade TitleRange of Marks

1H = 70% and over

2H1 = 60% - 69%

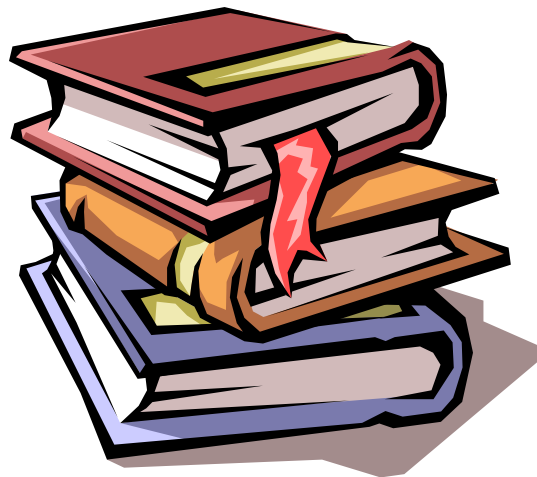

2H2 = 50% - 59%

3H = 45% - 49%

Pass = 40% – 44%

Fail = 39% and under

Each module will have specific reading requirements with a text book or course pack as well as a recommended reading list. As a minimum requirement, you are expected to attend your assigned lectures and build up a comprehensive series of lecture notes. Miscellaneous sources of material are also important such as newspaper articles, current affairs broadcasts, internet sites, accounts/annual reports, speeches, legislation, national plans etc.

SUPPORT SERVICES

Starting university can be a daunting challenge, especially in a foreign country. It is important to realise that you are not alone even if at times you are confused and worried.

The Department of Government operates an 'open door' policy and if you have a problem please call to see us at an early stage. You will be offered comfort and support in a confidential and secure environment.

Do not keep your problems bottled up to yourself. Often people with a problem find it difficult to see the wood from the trees and a neutral outside perspective can be invaluable.

You should also 'look out' for your class colleagues and if you feel that any of them are experiencing problems you will be doing them a favour by letting us know at an early stage.

There are certain situations whereby you might not feel comfortable talking to a member of the Department. In such an eventuality there are a wide range of student services available to you in the university and these are contained on the next page.
