Conference Attended: European Drug Utilisation Research Group (EuroDURG) Conference 2017 15th-17th November 2017. **Location:** Glasgow, UK

I attended the EuroDURG conference 2017 in Glasgow, Scotland. Attendance at this conference provided me with an excellent opportunity to present my poster and research to an international audience and to gain valuable feedback and insights from colleagues.

In addition, the theme of the conference centred on drug utilisation research and medication adherence which was very interesting with respect to future research I intend to conduct. I was able to attend a number of interesting workshops that will be of benefit in my research and future career. At this conference, I won the Best Poster Award in the Elderly Category.

Thank you to CoMH for this opportunity.
