MAKIKO NISHI - Dental School

Conference attended: The 12th International Conference of Asian Academy of Preventive Dentistry, Tokyo, 27-29 May 2016

The conference was a great opportunity for me to network with Asian and Japanese colleagues. I received good questions to my poster presentation from three viewers: an associate professor, a pharmacist and an associated research scientist.

At a social event, one Japanese professor asked me to coordinate the invitation of someone from Ireland to Japan as a speaker on water fluoridation. I am currently working on this.

In another social event, I was pleased to talk with Professor Ogawa, who is the dental officer in WHO (World Health Organisation), and with the chief dental officer from Malaysia and her colleague.
