## **NIALL SAVAGE – College of Medicine and Health**

**Conference Attended:** World Congress on Medical Physics and Biomedical Engineering,  
Location: Toronto, Canada, 7<sup>th</sup> – 12<sup>th</sup> June 2015

As a result of being awarded a doctoral travel bursary I was able to attend a very prestigious international meeting on medical physics and biomedical engineering. I was given the opportunity to give an oral presentation during a special session on medical device instrumentation which was extremely relevant to my PhD subject area.

Many of the talks at the conference focused on the area of electrical impedance which allowed me to engage with many fellow researchers working on the topic and further develop my understanding of the technique, which will be extremely beneficial to my future work.

This was a great learning experience and I was delighted to have been given the chance to attend and present at such a large international conference.
