

SOFIA CUSSOTTO

Dept. Anatomy & Neuroscience

Conference Attended:

NSAS (Neuroscience School of Advanced Studies) advanced course “Microbiota and the Brain”. Venice, 2-9 June 2018.

I am sincerely grateful for the opportunity to attend the NSAS advanced course “Microbiota and the Brain” in Venice. This course brought together the world leading investigators in the field of neuroscience. Challenges and up-to-date research in the gut-brain field were discussed amongst a small and selected number of participants. Attendance to this course allowed me not only to gain a deeper insight in different sub-fields of the gut-brain research but also to establish a network with faculty and participants, which might bring to future collaborations. I would like to thank CoMH UCC for this amazing opportunity.
