

AILEEN CALLANAN

School of Public Health

Conference Attended:

27th WONCA Europe Conference 2022, London. 28th
June – 1st July 2022.

Attending the WONCA Europe conference has allowed me the opportunity to present my work to a targeted audience. The conference is a European conference for general practice. The work that I am undertaking is targeted towards implementation in primary care and GPs are the target group. Attending the conference has also given me the opportunity to engage and network with a key group of stakeholders in my area. The opportunity to disseminate my work to a worldwide audience has been invaluable and has helped me to gain confidence in presenting my work. I have benefitted immensely from attending this conference and I am very grateful to the College of Medicine and Health for the opportunity through the doctoral travel bursary. I hope to attend future conferences to disseminate my work as I progress through my PhD.
