

JODI CRONIN

Dental School & Hospital

Conference Attended:

The 2019 iHEA World Congress, Basel, Switzerland,
13th -17th July 2019.

Thanks to the College of Medicine and Health Doctoral Travel Bursary, I was afforded a wonderful opportunity to present part of my PhD research to an international audience. I also got the chance to discuss my research with senior health economists at a mentoring lunch that the iHEA had organised for students. The feedback provided in both these forums was invaluable. I gained very important insights into similar research being conducted in the economics of oral healthcare during the congress sessions and I look forward to putting this new knowledge to good use.

Attendance at this conference also provided me with the chance to network with other researchers working in this area. I am very grateful for having experienced this occasion as I expect it will greatly enhance my PhD research at UCC.

Thank you
