

## **KIERAN DALTON**

### **School of Pharmacy**

#### **Conference Attended:**

25th Health Services Research & Pharmacy Practice  
Conference: 8th - 9th April 2019

As a recipient of a College of Medicine and Health bursary, I was afforded a very valuable opportunity to present two of my thesis chapters in two 15-minute oral presentations to an interested international audience. I was surprised and delighted to have been awarded the prize for 'Best Oral Presentation' at the conference.

By attending this conference, I also gained valuable insights from experts during plenary sessions and workshops, and look forward to putting this new knowledge to good use. Furthermore, networking at this conference allowed me to create new international research links, which could lead to future collaboration.
