

AYAT ELGAMMAL

School of Pharmacy

Conference Attended:

Prescribing and Research in Medicines Management (PRIMM) (UK & Ireland), 10th June 2022.

Attendance at the PRIMM conference was an ideal opportunity for me to showcase my interdisciplinary research in an international setting. This conference gave me a great chance to get feedback from experts on my work. Answering questions about my work and chatting with others honed my communication skills. Additionally, it was a great opportunity to know other people in my field and know about their latest findings. This meeting was a great opportunity for me to network with leaders of my research field and to engage with medical, nursing and pharmacist colleagues from across UK and Ireland. Participating in live discussions at this conference developed my ideas regarding my project. Hence, this was a great inspiration for my research.
