

School of Nursing and Midwifery Scoil an Altranais agus Cnáimhseachais

23rd Annual School of Nursing and Midwifery Research Conference

TRANSFORMING HEALTH THROUGH NURSING AND MIDWIFERY RESEARCH

Wednesday, 11th December

Room G.06, Brookfield Health Sciences Complex, University College Cork

Room G.06, Brookfield Health Sciences Complex, University College Cork			
Times	Topic/Speaker		
08:30-09:30	Conference Registration Brookfield Health Sciences Complex Atrium		
09:30-09:40	Opening Address Professor Patricia Leahy-Warren, Dean and Head of School of Nursing and Midwifery, UCC		
09:40-10:20	Professor Research Programmes and Cluster Highlights Chair: Ms Carmel Buckley		
	Advancing Dementia Care: Integrating Palliative Approaches and System Improvements in Nursing Home - Professor Nicola Cornally		
	Perinatal Parental and Child Health: Advancing Innovations in Research. - Professor Patricia Leahy-Warren		
	Taking a health systems research lens to cancer: the impact on quality of life and the individuals cancer journey. - Professor Josephine Hegarty		
	Addressing multimorbidity in older patients with atrial fibrillation through interdisciplinary, patient centred, systematic care pathways. - Professor Gerry Lee		
10:20-10:45	Academic Health Sciences: Engaging with Clinical Partners in Advanced Practice Chair: Dr Elaine Lehane		
	ICU Nurses Understanding of Post Intensive Care Syndrome. - Ms Claire Crowley		
	Supporting those living with IBD – the role of the CNS/ANP and PhD student. - Ms Clodagh Byron		
10:45-11:15	Tea & Coffee Break Poster Viewing Room 1.01		
11:15-11:30	Research Opportunities for Undergraduate Students Chair: Dr Teresa Wills		
	Preparing for Academic Clinical Pathways. - Professor Gerry Lee		
	Summer Undergraduate Research Experience (SURE) Awardees 2024: Key Learnings and Professional Growth. - Ms Aryth Stryker - Mc Claire Corcoran		

11:30-11:50 Disseminating Masters Research Chair: Dr Serens Fitzgerald				
Perspective. - Dr Mohamad Saab The Impact of Electronic and Self-Rostering Systems on Healthcare Organisations and Healthcare Workers. - Ms Martina O' Connell 11:50-12:30 S-Minute Thesis Chair: Dr Mohamad Saab People with intellectual disabilities and their family caregivers' experiences of planning and decision-making for a residential transition. A dyadic multiperspectival interpretive phenomenological analysis. - Ms Caroline Egan Care closer to home for children with tracheostomies. - Ms Care O'Leary The moveable line - providing individualised care for high-risk women in labour and birth. - Ms Mary Curtin A phased principle based concept analysis approach. - Ms Poonam Issawal To explore how nurses coped with professional and personal carring and responsibilities during the Covid 19 pandemic. - Ms Mary O'Regan Identifying nursing home residents' unmet palliative care needs. - Ms Patrice Crowley 12:30-13:10 Employment Based PhDs: Maximising Opportunities to Enhance Evidence Based Practice Chair: Professor Bridie O' Sultivan Transformation care: Unveiling the Stop Hospital Associated Decline (STAD) project for enhanced care of the older adult in hospital. - Ms Amanda Brally Designing an education intervention to enhance newly diagnosed rheumatoid arthritis patients' knowledge of cardiovascular comorbidities and modifiable risk factors. - Ms Louise Murphy Reducing Modifiable Risk factors for Dementia in adults with Mild cognitive impairment (MCI)/Subjective Cognitive Impairment (SCI). - Ms Germa McCarthy GROW & THRIVE: Developing and testing Guidance and Resources for Optimal Wellbeing & Teen's Sexual Health and Safety Relationship InitiatiVE. - Ms Margo Noonan	11:30-11:50	_		
Healthcare Workers. - Ms Martina O'Connell 11:50-12:30 S-Minute Thesis Chair: Dr Mohamad Saab People with intellectual disabilities and their family caregivers' experiences of planning and decision-making for a residential transition. A dyadic multiperspectival interpretive phenomenological analysis. - Ms Caroline Egan Care closer to home for children with tracheostomies. - Ms Caro O'Leary The moveable line - providing individualised care for high-risk women in labour and birth. - Ms Mary Curtin A phased principle based concept analysis approach. - Ms Poonam Jaswel To explore how nurses coped with professional and personal caring and responsibilities during the Covid 19 pandemic. - Ms Mary O'Regan Identifying nursing home residents' unmet palliative care needs. - Ms Patrice Crowley 12:30-13:10 Employment Based PhDs: Maximising Opportunities to Enhance Evidence Based Practice Chair: Professor Bridie O'Sultivan Transformation care: Unveiling the Stop Hospital Associated Decline (STAD) project for enhanced care of the older adult in hospital. - Ms Amanda Brolly Designing an education intervention to enhance newly diagnosed rheumatoid arthritis patients' knowledge of cardiovascular comorbidities and modifiable risk factors. - Ms Louise Murphy Reducing Modifiable Risk factors for Dementia in adults with Mild cognitive impairment (MCI)/Subjective Cognitive Impairment (SCI). - Ms Gamma McCarthy GROW & THRIVE: Developing and testing Guidance and Resources for Optimal Wellbeing & Teens' Sexual Health and Safety Relationship Initiative. - Ms Margo Noonan		Perspective.		
Chair: Dr Mohamad Saab People with intellectual disabilities and their family caregivers' experiences of planning and decision-making for a residential transition. A dyadic multiperspectival interpretive phenomenological analysis. - Ms Caroline Egan Care closer to home for children with tracheostomies. - Ms Cora O' Leary The moveable line - providing individualised care for high-risk women in labour and birth. - Ms Mary Curtin A phased principle based concept analysis approach. - Ms Poonam Jaswal To explore how nurses coped with professional and personal caring and responsibilities during the Covid 19 pandemic. - Ms Mary O' Regan Identifying nursing home residents' unmet palliative care needs. - Ms Patrice Crowley 12:30-13:10 Employment Based PhDs: Maximising Opportunities to Enhance Evidence Based Practice Chair: Professor Bridie O' Sullivan Transformation care: Unveiling the Stop Hospital Associated Decline (STAD) project for enhanced care of the older adult in hospital. - Ms Amanda Brolly Designing an education intervention to enhance newly diagnosed rheumatoid arthritis patients' knowledge of cardiovascular comorbidities and modifiable risk factors. - Ms Louise Murphy Reducing Modifiable Risk factors for Dementia in adults with Mild cognitive impairment (MCI)/Subjective Cognitive Impairment (SCI). - Ms Gemma McCarthy GROW & THRIVE: Developing and testing Guidance and Resources for Optimal Wellbeing & Teens' Sexual Health and Safety Relationship InitiativE. - Ms Margo Noonan		Healthcare Workers.		
People with intellectual disabilities and their family caregivers' experiences of planning and decision-making for a residential transition. A dyadic multiperspectival interpretive phenomenological analysis. - Ms Caroline Egan Care closer to home for children with tracheostomies. - Ms Caro O'Leary The moveable line - providing individualised care for high-risk women in labour and birth. - Ms Mary Curtin A phased principle based concept analysis approach. - Ms Poonam Jaswal To explore how nurses coped with professional and personal caring and responsibilities during the Covid 19 pandemic. - Ms Mary O'Regan Identifying nursing home residents' unmet palliative care needs. - Ms Patrice Crowley 12:30-13:10 Employment Based PhDs: Maximising Opportunities to Enhance Evidence Based Practice Chair: Professor Bridie O'Sullivan Transformation care: Unveiling the Stop Hospital Associated Decline (STAD) project for enhanced care of the older adult in hospital. - Ms Amanda Brolly Designing an education intervention to enhance newly diagnosed rheumatoid arthritis patients' knowledge of cardiovascular comorbidities and modifiable risk factors. - Ms Louise Murphy Reducing Modifiable Risk factors for Dementia in adults with Mild cognitive impairment (MCI)/Subjective Cognitive Impairment (SCI). - Ms Gemma McCarthy GROW & THRIVE: Developing and testing Guidance and Resources for Optimal Wellbeing & Teens' Sexual Health and Safety Relationship InitiativE. - Ms Margo Noonan	11:50-12:30			
decision-making for a residential transition. A dyadic multiperspectival interpretive phenomenological analysis. - Ms Caroline Egan Care closer to home for children with tracheostomies. - Ms Cora O'Leary The moveable line - providing individualised care for high-risk women in labour and birth. - Ms Mary Curtin A phased principle based concept analysis approach. - Ms Poonam Jaswal To explore how nurses coped with professional and personal caring and responsibilities during the Covid 19 pandemic. - Ms Mary O'Regan Identifying nursing home residents' unmet palliative care needs. - Ms Patrice Crowley 12:30-13:10 Employment Based PhDs: Maximising Opportunities to Enhance Evidence Based Practice Chair: Professor Bridie O'Sullivan Transformation care: Unveiling the Stop Hospital Associated Decline (STAD) project for enhanced care of the older adult in hospital. - Ms Amanda Brolly Designing an education intervention to enhance newly diagnosed rheumatoid arthritis patients' knowledge of cardiovascular comorbidities and modifiable risk factors. - Ms Louise Murphy Reducing Modifiable Risk factors for Dementia in adults with Mild cognitive impairment (MCI)/Subjective Cognitive Impairment (SCI). - Ms Gemma McCarthy GROW & THRIVE: Developing and testing Guidance and Resources for Optimal Wellbeing & Teens' Sexual Health and Safety Relationship InitiatiVE. - Ms Margo Noonan Lunch Poster Viewing Room 1.01		Chair: Dr Mohamad Saab		
The moveable line - providing individualised care for high-risk women in labour and birth. Ms Mary Curtin A phased principle based concept analysis approach. Ms Poonam Jaswal To explore how nurses coped with professional and personal caring and responsibilities during the Covid 19 pandemic. Ms Mary O'Regan Identifying nursing home residents' unmet palliative care needs. Ms Patrice Crowley 12:30-13:10 Employment Based PhDs: Maximising Opportunities to Enhance Evidence Based Practice Chair: Professor Bridie O'Sullivan Transformation care: Unveiling the Stop Hospital Associated Decline (STAD) project for enhanced care of the older adult in hospital. Ms Amanda Brolly Designing an education intervention to enhance newly diagnosed rheumatoid arthritis patients' knowledge of cardiovascular comorbidities and modifiable risk factors. Ms Louise Murphy Reducing Modifiable Risk factors for Dementia in adults with Mild cognitive impairment (MCI)/Subjective Cognitive Impairment (SCI). Ms Gemma McCarthy GROW & THRIVE: Developing and testing Guidance and Resources for Optimal Wellbeing & Teens' Sexual Health and Safety Relationship InitiativE. Ms Margo Noonan Lunch Poster Viewing Room 1.01		decision-making for a residential transition. A dyadic multiperspectival interpretive phenomenological analysis.		
- Ms Mary Curtin A phased principle based concept analysis approach Ms Poonam Jaswal To explore how nurses coped with professional and personal caring and responsibilities during the Covid 19 pandemic Ms Mary O'Regan Identifying nursing home residents' unmet palliative care needs Ms Patrice Crowley 12:30-13:10 Employment Based PhDs: Maximising Opportunities to Enhance Evidence Based Practice Chair: Professor Bridie O' Sullivan Transformation care: Unveiling the Stop Hospital Associated Decline (STAD) project for enhanced care of the older adult in hospital Ms Amanda Brolly Designing an education intervention to enhance newly diagnosed rheumatoid arthritis patients' knowledge of cardiovascular comorbidities and modifiable risk factors Ms Louise Murphy Reducing Modifiable Risk factors for Dementia in adults with Mild cognitive impairment (MCI)/Subjective Cognitive Impairment (SCI) Ms Gemma McCarthy GROW & THRIVE: Developing and testing Guidance and Resources for Optimal Wellbeing & Teens' Sexual Health and Safety Relationship InitiatiVE Ms Margo Noonan Lunch Poster Viewing Room 1.01				
To explore how nurses coped with professional and personal caring and responsibilities during the Covid 19 pandemic. Ms Mary O' Regan Identifying nursing home residents' unmet palliative care needs. Ms Patrice Crowley 12:30-13:10 Employment Based PhDs: Maximising Opportunities to Enhance Evidence Based Practice Chair: Professor Bridie O' Sullivan Transformation care: Unveiling the Stop Hospital Associated Decline (STAD) project for enhanced care of the older adult in hospital. Ms Amanda Brolly Designing an education intervention to enhance newly diagnosed rheumatoid arthritis patients' knowledge of cardiovascular comorbidities and modifiable risk factors. Ms Louise Murphy Reducing Modifiable Risk factors for Dementia in adults with Mild cognitive impairment (MCI)/Subjective Cognitive Impairment (SCI). Ms Gemma McCarthy GROW & THRIVE: Developing and testing Guidance and Resources for Optimal Wellbeing & Teens' Sexual Health and Safety Relationship InitiatiVE. Ms Margo Noonan Lunch Poster Viewing Room 1.01				
the Covid 19 pandemic. - Ms Mary O' Regan Identifying nursing home residents' unmet palliative care needs. - Ms Patrice Crowley 12:30-13:10 Employment Based PhDs: Maximising Opportunities to Enhance Evidence Based Practice Chair: Professor Bridie O' Sullivan Transformation care: Unveiling the Stop Hospital Associated Decline (STAD) project for enhanced care of the older adult in hospital. - Ms Amanda Brolly Designing an education intervention to enhance newly diagnosed rheumatoid arthritis patients' knowledge of cardiovascular comorbidities and modifiable risk factors. - Ms Louise Murphy Reducing Modifiable Risk factors for Dementia in adults with Mild cognitive impairment (MCI)/Subjective Cognitive Impairment (SCI). - Ms Gemma McCarthy GROW & THRIVE: Developing and testing Guidance and Resources for Optimal Wellbeing & Teens' Sexual Health and Safety Relationship InitiatiVE. - Ms Margo Noonan Lunch Poster Viewing Room 1.01				
12:30-13:10 Employment Based PhDs: Maximising Opportunities to Enhance Evidence Based Practice Chair: Professor Bridie O' Sullivan Transformation care: Unveiling the Stop Hospital Associated Decline (STAD) project for enhanced care of the older adult in hospital. - Ms Amanda Brolly Designing an education intervention to enhance newly diagnosed rheumatoid arthritis patients' knowledge of cardiovascular comorbidities and modifiable risk factors. - Ms Louise Murphy Reducing Modifiable Risk factors for Dementia in adults with Mild cognitive impairment (MCI)/Subjective Cognitive Impairment (SCI). - Ms Gemma McCarthy GROW & THRIVE: Developing and testing Guidance and Resources for Optimal Wellbeing & Teens' Sexual Health and Safety Relationship InitiatiVE. - Ms Margo Noonan Lunch Poster Viewing Room 1.01		the Covid 19 pandemic.		
Chair: Professor Bridie O' Sullivan Transformation care: Unveiling the Stop Hospital Associated Decline (STAD) project for enhanced care of the older adult in hospital. - Ms Amanda Brolly Designing an education intervention to enhance newly diagnosed rheumatoid arthritis patients' knowledge of cardiovascular comorbidities and modifiable risk factors. - Ms Louise Murphy Reducing Modifiable Risk factors for Dementia in adults with Mild cognitive impairment (MCI)/Subjective Cognitive Impairment (SCI). - Ms Gemma McCarthy GROW & THRIVE: Developing and testing Guidance and Resources for Optimal Wellbeing & Teens' Sexual Health and Safety Relationship InitiatiVE. - Ms Margo Noonan Lunch Poster Viewing Room 1.01				
enhanced care of the older adult in hospital. - Ms Amanda Brolly Designing an education intervention to enhance newly diagnosed rheumatoid arthritis patients' knowledge of cardiovascular comorbidities and modifiable risk factors. - Ms Louise Murphy Reducing Modifiable Risk factors for Dementia in adults with Mild cognitive impairment (MCI)/Subjective Cognitive Impairment (SCI). - Ms Gemma McCarthy GROW & THRIVE: Developing and testing Guidance and Resources for Optimal Wellbeing & Teens' Sexual Health and Safety Relationship InitiatiVE. - Ms Margo Noonan Lunch Poster Viewing Room 1.01	12:30-13:10			
knowledge of cardiovascular comorbidities and modifiable risk factors. - Ms Louise Murphy Reducing Modifiable Risk factors for Dementia in adults with Mild cognitive impairment (MCI)/Subjective Cognitive Impairment (SCI). - Ms Gemma McCarthy GROW & THRIVE: Developing and testing Guidance and Resources for Optimal Wellbeing & Teens' Sexual Health and Safety Relationship InitiatiVE. - Ms Margo Noonan 13:10-14:00 Lunch Poster Viewing Room 1.01		enhanced care of the older adult in hospital.		
(MCI)/Subjective Cognitive Impairment (SCI). - Ms Gemma McCarthy GROW & THRIVE: Developing and testing Guidance and Resources for Optimal Wellbeing & Teens' Sexual Health and Safety Relationship InitiatiVE. - Ms Margo Noonan Lunch Poster Viewing Room 1.01		knowledge of cardiovascular comorbidities and modifiable risk factors.		
Teens' Sexual Health and Safety Relationship InitiatiVE. - Ms Margo Noonan Lunch Poster Viewing Room 1.01		(MCI)/Subjective Cognitive Impairment (SCI).		
Room 1.01		Teens' Sexual Health and Safety Relationship InitiatiVE.		
Room 1.01	13:10-14:00	Lunch Poster Viewing		
14:00-14:30 Keynote Presentation		i i i i i i i i i i i i i i i i i i i		
	14:00-14:30	Keynote Presentation		

	Chair: Professor Gerry Lee			
	Why Does Advocacy Matter? - Professor Donna Fitzsimons, School of Nursing and Midwifery, Queens University Belfast			
14:30-15:00	Behind Every Successful Researcher Chair: Dr Rita Forde			
	Research Support Roles in the School - Dr Noeleen Brady - Dr Aoife Long			
	Engaged research: A civic and community perspective - Dr Margaret Curtin, Ms Mary Cronin, Mr Stephen Murphy, Ms Fahmeda Naheed			
	Informing and Impacting Policy, Practice and Education through Research Chairs: Professor Nicola Cornally and Dr Anne-Marie Martin			
15:00-15:30	Room G.06	Room G.05		
	"You always feel really good and refreshed after it": Sea Swimming as an Intervention for Young People in the Child & Adolescent Mental Health Services. - Dr Johnny Goodwin Evaluation of the Impact of Implementing a Future Care Plan with Patients with Palliative Care Needs.	An Evaluation of a National Foundation Module for Critical Care Nurses. - Dr Sean Kelleher Nature's Touch: Advancing Dementia and Stroke Care with Human-Animal Interactions. - Dr Irene Hartigan Revolutionising Healthcare Education:		
	 Dr Caroline Kilty Translational Breastfeeding Research and the Maternity, Families and Primary Care team. Dr Helen Mulcahy 	Harnessing Virtual Reality for Men's Health, Nursing Simulation, and Communication Skills Training Dr Mohamad Saab		
15:30-16:15	Room G.06			
	Influencing Theory, Practice and Strategy: An Overview of Mental Health and Wellbeing Research at the School of Nursing and Midwifery, UCC. - Dr Aine O'Donovan			
	Advancing Workforce Well-Being in Healthcare: 'Magnet4Europe'. - Dr Elaine Lehane			
	The impact of a planned change to nurse staffing levels in Emergency Departments: A pre-test, post-test design. - Dr Vera McCarthy			
	Inclusion Health: undertaking a public consultation to inform a national inclusion health framework. - Dr Angela Flynn			
16:15-16:30	Closing Address and Prize Giving Professor Nicola Cornally, Vice Dean of Research and Innovation, School of Nursing and Midwifery
