

College of Medicine and Health

School of Clinical
Therapies

UCC

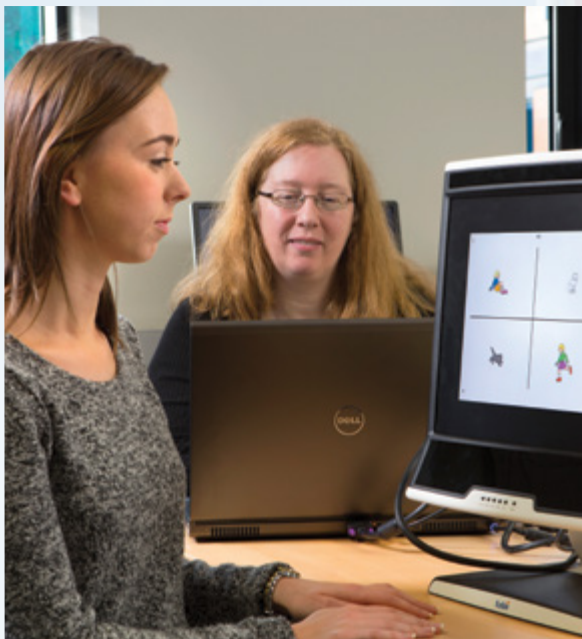

University College Cork, Ireland
Coláiste na hOllscoile Corcaigh

The School of Clinical Therapies includes the disciplines of Occupational Science & Occupational Therapy, Speech & Hearing Sciences and Audiology. The School offers a variety of professional, research and taught postgraduate opportunities.

REASONS TO DO A POSTGRADUATE COURSE IN THE SCHOOL OF CLINICAL THERAPIES

- Expert supervision and guidance from leading scholars in their fields, engaged in cutting-edge, internationally recognised research
- A large, friendly and diverse postgraduate community
- A well-developed infrastructure that has the capacity to provide training in complementary skills
- Opportunities to attend seminars, workshops, mentoring groups and conferences

TO BECOME A QUALIFIED HEALTH PROFESSIONAL

MSc Audiology: CKX51

The MSc Audiology is a two year full-time programme. This new programme leads to a professional qualification in audiology. The aim of the programme is to educate, train and inspire confident clinicians who can meet the challenges of providing an integrated and scientific approach to assessing and managing the needs of children and adults with hearing and balance disorders.

POSTGRADUATE COURSES FOR QUALIFIED HEALTH PROFESSIONALS

MSc Evidence Based Therapy Practice: CKX15

The MSc Evidence Based Therapy Practice is a one year (12 months) full-time, or two years part-time programme. This MSc is designed to further the education of allied health professionals in research skills and evidence-based therapy while working clinically. All students must take a minimum of 2 core modules, 2 choice modules and the research study module.

PhD by Research

The School of Clinical Therapies offers specialist supervision and research opportunities to those who wish to apply for a Doctorate of Philosophy (PhD). A PhD is a demonstration of research competence by achieving a subject mastery, research insight, respect for the discipline, capacity for original, independent research and an ability to communicate results and relate them to the broader discourse. Students are advised to contact with the relevant Head of Department to discuss their proposed area of research.
