

UCC Neighbourhood Grants Scheme

2022

A New Civic Initiative

The purpose of the UCC Neighbourhood Grants scheme is to provide small seed funding to assist our local neighbours to collaborate together to undertake small community projects

All good ideas are welcome!

Ideas might involve....

Community improvement, graffiti removal etc.

Environmental, tree care, biodiversity actions etc.

Culture, arts, heritage, crafts...

Educational...

Sports and recreation...

Health and Fitness...

Or any other category.....

The project should be small scale, achievable and sustainable

What's Needed?

The project should contribute to community life, 'neighbourliness' and building connections between people in the area

To run a Neighbourhood Grant Scheme project you just need:

- an idea
 - a plan to involve local people
- to keep a record – maybe in photos
- to share the story of your project

Resident Led

Spread the word to people in the neighbourhood about what you propose to do

We encourage neighbours to reach out to other residents and involve them in planning and implementing the project

**Think about
how
neighbours
can
collaborate**

Partnership

An aim of the initiative is to contribute to community life, through fostering connections between local residents and UCC students living in the area, and with UCC staff

**Think about
how UCC
Students and
Staff can get
involved?**

Think about how local organisations or business etc. might contribute time and/or resources?

Celebrate

We encourage you to celebrate your achievements!
Tell others about what you did. e.g. via your local newsletter
or website etc.

Requirements

The scheme is open to neighbourhoods in the Cork South Central and South West Local Election Districts, that have significant numbers of UCC students residing in the area

Projects can apply for up to 250 euro in funding

Complete the application form:

www.ucc.ie/en/civic/engage/neighbourhoodgrant

Send us a short email report once the project is completed
