

Floating gently on the silvery water surface,  
humble duckweed flat and unseen,  
doubling, doubling, doubling,  
humble duckweed, covering it all.

Nitrogen is going,  
phosphorus is going,  
toxic ammonia a favourite snack,  
humble duckweed cleanses it all.

Floating between the reeds,  
a nutritious bite,  
ducks, swans, coots,  
humble duckweed feeds them all.

Nurtured in captivity,  
chopping, slicing, shredding,  
protein bars, smoothies, superfoods,  
humble duckweed surprises all.

Floating into the limelight,  
sustainability,  
the circular economy,  
humble duckweed does it all.
