- 11:00 Overview of the Imagining2050 project and community survey findings.
- 11:25 Presentation by Fionn Rogan: A historical view of change
- 11:45 Visioning exercise: Part 1: Authors of Change
- 12:30 Lunch
- 13:30 Visioning exercise: Part 2: Empathy mapping
- 14:30 Break
- 14:50 Visioning exercise: Part 3 – Generating Pathways through story boarding
- 16:15 Sharing and discussion
- 17:00 End of day one activities

**All participants are invited to join us for a social dinner
@ The Springboard Restaurant in the Kingsley Hotel, Cork at 7pm**

IMAGINING 2050 INFORMATION PACK

Date: 17 November, 2019

Time: 10 am to 1pm

Location: Woodward Suite-Kingsley Hotel, Cork City

DAY 2

17 November

OVERVIEW:

On our second day together you will be invited to take part in a range of mapping activities to identify key areas of change for Ballincollig . Alongside the group exercises there will be presentations and group discussions facilitated by researchers from UCC and Queens University Belfast.

TIMINGS:

- 10:00 Start of day two-participatory review of day 1
- 10:30 Presentation by Gerard Mullally: The Sustainable Development Goals
- 11:00 Break
- 11:15 A map for the future: creating a picture of Ballincollig in 2050
- 12:15 A balance of the weekend and next steps
- 13:00 End of day two activities with lunch

More about Imagining2050

Imagining2050: Engaging, Envisioning, and Co-Producing Pathways for a Low Carbon, Climate Resilient Ireland

About us: The Imagining2050 project is hosted by the Environmental Research Institute in UCC and the team is composed of highly experienced researchers from diverse backgrounds, with a combination of researchers from University College Cork and Queens University Belfast. We hope to make use of this expertise to develop a more unified vision, which links different strands of science with various community and local perspectives.

Between 2019 and 2020 we will be engaging with local communities, state organizations and other groups to develop climate change scenarios and pathways of change. These will not only provide a starting base for what our future could look like in 2050 but it will also help test out ways of genuinely connecting with different communities in a collaborative process.

Researchers: Gerard Mullally; Paul Bolger; Brian Ó Gallachóir ; John Barry; Clodagh Harris; Niall Dunphy; Geraint Ellis; Edmond Byrne; Fionn Rogan; Barry Dwyer; James Glynn; Alexandra Revez; Stephen Flood; Amy Dozier; Connor McGookin; Evan Boyle; Robert Wade; Alex Miller; Senni Maata.
