

Cork-IDEAS

The Genio Trust/HSE partnered Cork Integrated Dementia care Across Settings (Cork-IDEAS) project, 2014-2017, aimed at introducing changes in the acute hospital environment and education/ pathways to support better hospital care and integrated community-hospital working for the person with dementia. This project has a consortium of 45 members and several pilot interventions are planned (<http://www.genio.ie/news/2013-12-20-grants-approved-for-dementia-programme-2013>).
