Dr. Mohamed Khalil Ali  
Consultant Neonatologist  
President of the Sudanese Society of Neonatologists  
Khartoum

*Dear, Dr. Mohamed*

**RE: IMPLEMENTATION OF (HELPING BABIES BREATHE –HBB-  
PROGRAMME) FOR MIDWIVES IN SUDAN**

I write with reference to the letter from *Dr. Abdelmuniem Hamid*, Director of (Neonatal Care Training Courses for Midwives), regarding implementation of HBB programme for midwives in Sudan, which Neonatal Society gave its full support.

The Ministry of Health, through its Continuous Professional Development Centers in the capital and states, would like to confirm the supports the HBB project, and would facilitate hosting of these important training courses for midwives, because of their vital role in upgrading rural midwives skills, promoting neonatal care and contributing in reduction of neonatal mortality rate.

*With my best regards,,,*

  
Dr. Mohammed Ali Yahia El Abasi

A/Undersecretary

Federal Ministry of Health

Republic of the Sudan
