

Advance your research career at University College Cork, Ireland

The Environmental Research Institute (ERI) at University College Cork, Ireland is seeking to develop collaborative funding proposals with experienced postdoctoral researchers for submission under European and Irish funding programmes in the areas of Environmental, Marine and Energy research. The ERI is a flagship research institute at University College Cork (UCC) which is one of the premier research universities in Ireland and is ranked in the top 2% of universities worldwide.

The targeted funding programmes in this initiative are the Marie Curie Intra-European Fellowship and the Marie Curie International Incoming Fellowship. These funding programmes provide funding to:

- support the career development of experienced researchers
- support researchers in attaining and/or strengthening a leading independent position *e.g.* principal investigator, professor or other senior position.
- establish a collaboration through a research project with your lab or your country
- gain new knowledge in a Irish research group
- join an Irish research team that doesn't have your experience

The Institute will facilitate a good match between the research interests of the host Principal Investigator and the researcher and will assist with the preparation of high-quality proposal to ensure a high probability of success.

To find out more about the research at the Institute, and on how to apply, please visit <http://eri.ucc.ie/mariecurie>
