

COST Action UV4growth ESR Newsletter
5 December 2012

Registration to General Network Meeting and ESR School

The 3rd year of our COST Action will bring a large international meeting, an excellent opportunity to meet colleagues and catch up with recent developments in UV4growth. This **general network meeting** will be held on **15-16 April 2013**, in **Mikulov**, in the Czech-Republic. More information on this and several other small group meetings is available on our web site, <http://www.ucc.ie/en/uv4growth/meetings/> .

Register and submit your abstract at <http://uv4growth--mikulov-2013-1-2013.takeplace.eu/en>
Deadline for submitting abstracts to the network meeting is **15 December 2012**. An abstract template is available on the above web site.

Please note that meeting will be followed by an **ESR Training School** on **17-18 April 2013**. Themes of this school are quality of images, power points presentations and writing. More information on both network meeting and training school is on <http://uv4growth--mikulov-2013-1-2013.takeplace.eu/en> .

Dr Ilias Papadopoulos, our new science officer at COST office informs me that the Domain Committee of Food and Agriculture will announce a conference grant in January 2013. Deadline for submissions will be early 2013 and winners will be announced in March. Conference grants can not be awarded retrospective, so this would be a good opportunity to apply for support to attend conferences late spring or early summer. I have no other detail yet, but more information will be posted on the UV4growth web site as soon as the call is available and I will also send an ESR Newsletter.

Éva Hideg
