

International Summer Schools

Application Process

UCC's partner universities often run summer schools which are open to registered students. Please note, attending a summer school is for non-credit and students are subject to fees.

Students must email the International Office at mb.murphy@ucc.ie for further information.

Please note that a place on the summer school is **not guaranteed**. Admission is subject to the following:

- Availability of places
- Payment of applicable fees
- Compatibility with the student's programme of study
- Academic grades
- Requirements set by the host institution
- UCC departmental requirements
- Application deadlines

Deadline to apply

Application deadlines will vary but we recommend students reach out to the UCC International Office before **December** each year as student selection and application deadlines are typically in January.

GEM Trailblazer Summer, Nanyang Technological University, Singapore
