TDS ACCESS CONTROL V9

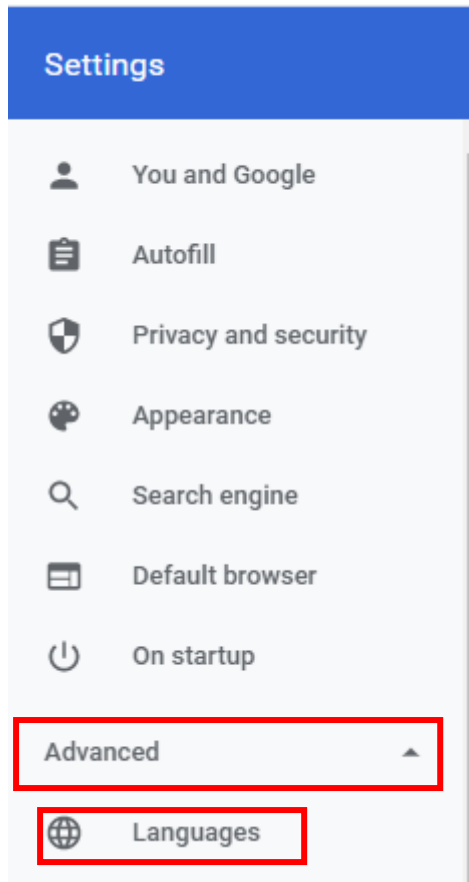

Changing Date Format Settings in Chrome

Changing the date format in Chrome to dd/mm/yyyy

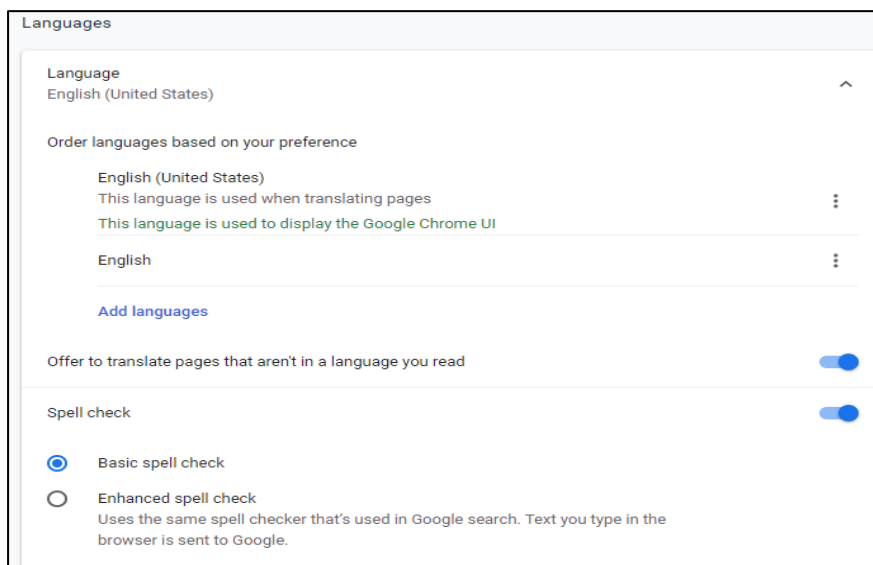

1. Open the Chrome Browser. At the top right hand of the page, click the 3 vertical dots.
2. Once you see the drop-down box, select "settings".

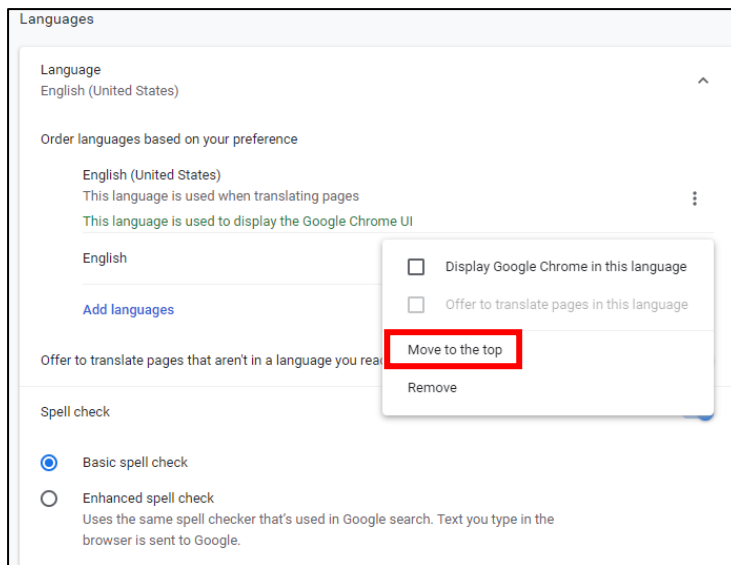

- Once in Settings, scroll to the bottom and select "Advanced" to find other options. Click on Languages

- Click the 3 vertical dots next to English

5. Click Move to the Top

6. Restart Chrome

7. Access TDS Access V9 – the data format will now read dd/mm/yyyy
