

---

## Welcome!

"We are excited to share with you news on the projects we have been working on in an effort to enhance the IT experience for all staff and students. Some of our new services will benefit your day to day working life such as our user friendly one logon for multiple services including [WiFi](#) (Eduroam), [large file sender](#) and [media hosting](#). This month we are also rolling out the [Information Services Project Management Office](#) (ISPMO) which will support IT Services development projects."

- **Gerard Culley**, Director of IT Services

---

### Information Services Project Management Office

We have just launched the Information Services Project Management Office (ISPMO).

Please visit our [projects page](#) for information about our projects and project methodology. You may also find it helpful to follow our [project lifecycle](#) and [project templates](#) for any projects your office/unit are undertaking.

### Single Sign-On

Did you know that you can now use your UCC email address and password to access the most common IT services in UCC - including WiFi via [Eduroam](#) (now also for use on campus), [outlook anywhere access](#), [large file sending](#) and [media hosting](#).

For more information about this service and how to use it [click here](#).

- [IT Services for Staff](#)
- [Website Migration](#)
- [New ECDL Modules launched](#)
- [IT Services for Students](#)

**UCC ONLINE** launched its new [website](#) in September. UCC ONLINE is now offering a selection of online learning programmes.

### New UCC Homepage

A new UCC homepage will be going live next week. We would welcome your feedback to: [dewg@ucc.ie](mailto:dewg@ucc.ie)
