

MAC Printer Setup – UCC Staff

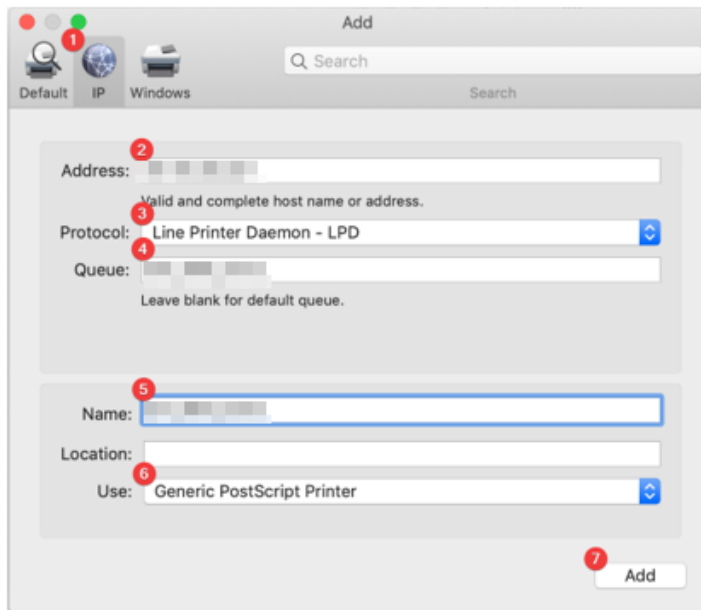

- Open **System Preferences** from the floating Dock

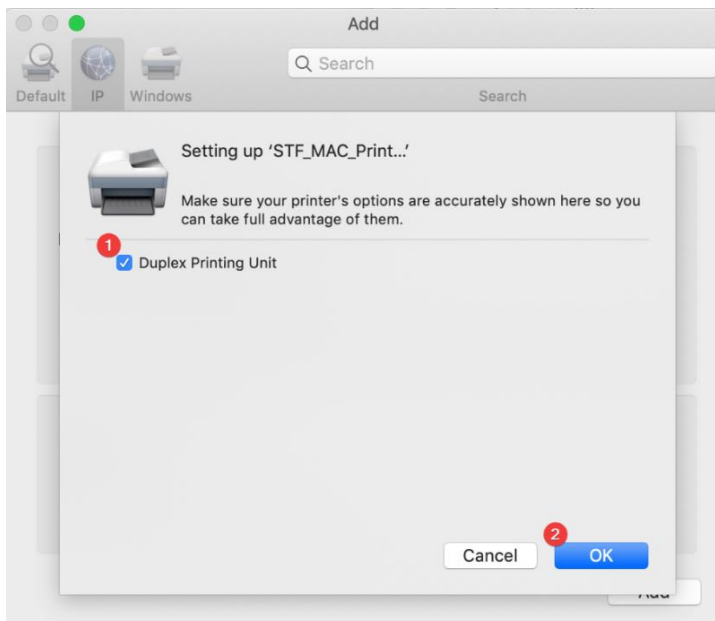

- Open **Printers & Scanners**
- Click the **+** button to add a new Printer

1. Select the **IP** option at the top of the screen
2. Enter the address **studprnt-svr02.ucc.ie**
3. Ensure the Protocol is set to **Line Printer Daemon – LPD**
4. Enter the following for Queue: **UNIFLOW-MAC**
5. Enter the following for Name: **UNIFLOW-MAC**
6. Select **Generic Postscript Printer** in the Use: drop down list.
7. Click the **Add** button

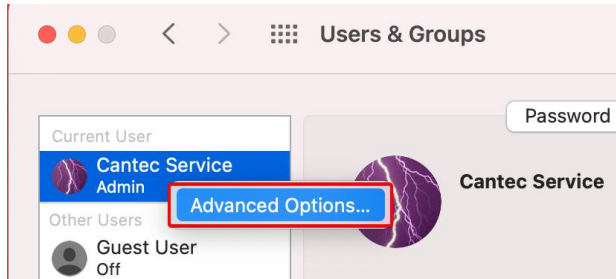

- Check the **Duplex Printing Unit** option if prompted and click **OK**.

Important Note: If your MAC Account Name is not the same as your UCC domain username it will need to be added to your uniFLOW account to ensure you can release your prints.

- Open System Preferences > User & Groups
- Press the Control key on your keyboard and click on your user account.
- Select **Advanced Options**

Take note of the Account name.
