## GENERAL REGULATIONS GOVERNING EXAMINATIONS FOR ALL UNDERGRADUATE PROGRAMMES

#### **Written Examinations:**

Written examinations will be held at the end of each Semester. Semester 1 Written Examinations will take place in December (Winter); Semester 2 Written Examinations will take place in April/May (Summer). Written Examinations for programmes with placement will normally take place in March/April (Spring). Written Examinations for Semester 3 will take place in August (Autumn).

#### **Publication of Results:**

Publication of Results provisional module marks and results for Semester 1 will be released to students in February. These results are provisional and subject to approval of the External Examiner(s), the Examination Board and Academic Board. Programme results for Semester 1 and 2, once approved by the Spring/Summer Examination Boards, will be released provisionally to students and are subject to Academic Board approval in June.

Provisional results for Semester 3, once approved by the Winter Examination boards will be released provisionally to students and are subject to Academic board approval in December.

#### **Awarding of Credits:**

Where a student passes the year according to the Pass and Progression Rules he/she shall be awarded 60 credits. Students who fail a module(s) but satisfy the Pass and Progression Rules will be awarded 60 credits and the judgement recorded for failed module(s) will be Pass by Compensation.

#### Absence from an Examination in a Module:

- Registration at the beginning of an academic year constitutes entry for Examination. All repeat students are required to present for examination in the relevant subject(s)/module(s).
- A student who is prevented for medical reasons or other personal circumstances from attending all or part of the Examination, and who has not withdrawn from the programme, should submit to apply the Student Records and Examinations to defer <a href="https://www.ucc.ie/en/exams/procedures-regulations/">https://www.ucc.ie/en/exams/procedures-regulations/</a>
- Applications for a deferral of all examinations to supplemental (Autumn) or repeat year examinations are considered before the start of written examinations. Only in exceptional circumstances will a partial deferral be considered. Complete applications requesting Deferral of examinations must be submitted no later than two weeks before the official start date of examinations.
- Students registered with the Disability Support Service (DSS) should contact

their Disability Advisor in the first instance, to discuss Deferral of Examinations. The Disability Support Service may be contacted at: 021 490 2985, dssinfo@ucc.ie, or by calling to the South Lodge, College Road.

- Students who are pregnant or who have had a baby within close proximity to the examinations will be automatically granted a deferral by submitting a completed Mitigation form (https://www.ucc.ie/en/exams/procedures-regulations/). Appropriate supporting documentation must be included.
- Where a student fails to present for an End of Semester Examination(s) Written Examination in a module, a judgement of "Absent" is recorded for that module. "Absent" is counted as an attempt at an examination. Where a module is examined by a combination of Continuous Assessment and End of Year Written Examination, and the student does not present for the End of Year Written Examination, an "Absent" judgement and the mark for Continuous Assessment are recorded. Where a module is assessed wholly by Continuous Assessment, and the student presents no work, a "Presented No Work" judgement is recorded.

#### **Supplemental Examinations:**

In determining aggregation, progression, and the calculation of the award of honours, full marks obtained in modules passed at the Summer Examination Board in the first attempt year plus capped marks obtained in modules in Supplemental and Repeat Year Examinations are used. Note: For students selecting different modules not previously taken, there are no restrictions on the marks awarded for those modules at the Summer Examination Board of a Repeat Year.
- 2. Students may repeat the year taking the full 40 credits of lecture modules the Work Placement module cannot be repeated. In determining aggregation, progression, and the calculation of the award of honours, there is no restriction on the marks awarded for modules at the Summer Examination Board of the Repeat Year. Modules taken at the subsequent Supplemental Examination are capped at the pass mark. Subject to capacity, all students, whether they have failed or passed, are allowed to choose this option in an attempt to improve their grade.

In the case of a candidate choosing option 2 who failed the first attempt year and who also fails a Repeat Year as a result of failing module(s) already passed a previous year, a pass for the year will be awarded by the Examination Board, provided the student achieves the Pass and Progression Standard for the year on the combined results from both years. In the case of candidates choosing option 2 who had already passed or got honours in their first attempt year but who (i) fail the examination in a Repeat Year as a result of failing module(s) already passed in a previous year or (ii) fail to qualify for a higher class of honours at the second attempt, the original programme level judgement and associated marks will be awarded by the Examination Board.

Three Year Rule:	Candidates must pass/progress within 3 academic years of the date of first
	registration for Fourth Year, otherwise they cannot continue in the
	programme.

Students who fail to achieve the pass standard for the year at the Summer Examination Board must repeat all failed/absent modules at the Supplemental Examination Board, where there is provision to do so and if not disallowed by the Examination Board, or in a Repeat Year (see below). Marks from all passed modules are carried forward to the Supplemental Examination.

The pass/progression rules are applied to the combination of markscarried forward in passed modules and marks obtained in repeated modules. Capping of Marks at a Supplemental Examination: In determining aggregation and progression, the maximum mark that will be taken into account is a pass (40%). The actual mark achieved by the candidate will be recorded on the student record.

# Repeat Year Examinations:

Students repeating the year may do so under one of the following mechanisms, individual repeat candidates choosing whichever mechanism best suits his/her requirements. *Note: Students are eligible for the award of Honours in the first Repeat Year only.* 

- 1. Students retain exemptions, if any, and must repeat all failed/absent modules. In determining aggregation, progression, and the calculation of the award of honours, full marks obtained in modules passed at the Spring Examination Board in the first attempt year plus capped marks obtained in modules in Supplemental and Repeat Year Examinations are used. Note: For students selecting different modules not previously taken, there are no restrictions on the marks awarded for those modules at the Spring Examination of a Repeat Year.
- 2. Students may repeat the year taking 50 credits of taught modules and are not required to retake FS3001/FE3206 module. In determining aggregation, progression, and the calculation of the award of honours, there is no restriction on the marks awarded for modules at the Spring Examination Board of the Repeat Year. Modules taken at the subsequent Supplemental Examination are capped at the pass mark. Subject to capacity, all students whether they have failed or passed are allowed to choose this option in an attempt to improve their grade.

In the case of a candidate choosing option 2 who failed the first attempt year and who also fails a Repeat Year as a result of failing module(s) already passed a previous year, a pass for the year will be awarded by the Examination Board, provided the student achieves the Pass and Progression Standard for the year on the combined results from both years. In the case of candidates choosing option 2 who have already passed or got honours in their first attempt year but who (i) fail the examination in a Repeat Year as a result of failing module(s) already passed in a previous year or (ii) fail to qualify for a higher class of honours at the second attempt, the original programme level judgement and associated marks will be awarded by the Examination Board.

Students who fail to achieve the pass standard for the year at the Summer Examination Board must repeat all failed/absent modules at the Supplemental Examination Board, where there is provision to do so and if not disallowed by the Examination Board, or in a Repeat Year (see below). Marks from all passed modules are carried forward to the Supplemental Examination. Subject to capacity, all students, whether they have failed or passed, are allowed to choose this option in an attempt to improve their grade.

In the case of a candidate choosing option 2 who failed the first attempt year and who also fails a Repeat Year as a result of failing module(s) already passed a previous year, a pass for the year will be awarded by the Examination Board, provided the student achieves the Pass and Progression Standard for the year on the combined results from both years.

In the case of candidates choosing option 2 who had already passed or got honours in their first attempt year but who (i) fail the examination in a Repeat Year as a result of failing module(s) already passed in a previous year or (ii) fail to qualify for a higher class of honours at the second attempt, the original programme level judgement and associated marks will be awarded by the Examination Board.

# Repeat Year Examinations:

Students repeating the year may do so choosing whichever of the two following mechanisms best suits his/her requirements. *Note: Students are eligible for the award of Honours in the first Repeat Year only.* 

- 1. Students retain exemptions, if any, and must repeat all failed/absent modules. In determining aggregation, progression, and the calculation of the award of honours, full marks obtained in modules passed at the Summer Examination Board in the first attempt year plus capped marks obtained in modules in Supplemental and Repeat Year Examinations are used. Note: For students selecting different modules not previouslytaken, there are no restrictions on the marks awarded for those modules at the Summer Examination Board of a Repeat Year.
- 2. Students may repeat the year taking the full 60 credits. In determining aggregation, progression, and the calculation of the award of honours, there is no restriction on the marks awarded for modules at the Summer Examination Board of the Repeat Year. Modules taken at the subsequent Supplemental Examination are capped at the pass mark. Subject to capacity, all students, whether they have failed or passed, are allowed to choose this option in an attempt to improve their grade.

In the case of a candidate choosing option 2 who failed the first attempt year and who also fails a Repeat Year as a result of failing module(s) already passed a previous year, a pass for the year will be awarded by the Examination Board, provided the student achieves the Pass and Progression Standard for the year on the combined results from both years.

In the case of candidates choosing option 2 who had already passed or got honours in their first attempt year but who (i) fail the examination in a Repeat Year as a result of failing module(s) already passed in a previous year or (ii) fail to qualify for a higher class of honours at the second attempt, the original programme level judgement and associated marks will be awarded by the Examination Board.

## Repeat Year Examinations:

Students repeating the year may do so under one of the following mechanisms, individual repeat candidates choosing whichever mechanism best suits his/her requirements. Note: Students are eligible for the award of Honours in the first Repeat Year only.

- 1. Students retain exemptions, if any, and must repeat all failed/absent modules. In determining aggregation and the calculation of the award of honours, full marks obtained in modules passed at the Summer Examination in the first attempt year plus capped marks obtained in modules in Supplemental and Repeat Year Examinations are used. Note: For students selecting different modules not previously taken, there are no restrictions on the marks awarded for those modules at the Summer Examination of a Repeat Year.
- 2. Students may repeat the year taking the full 60 credits. In determining aggregation, progression, and the calculation of the award of honours, there is no restriction on the marks a warded for modules at the Summer Examination of the Repeat Year. Modules taken at the subsequent Supplemental Examination are capped at the pass mark. Subject to capacity, all students, whether they have failed or passed, are allowed to choose this option in an attempt to improve their grade.

In the case of a candidate choosing option 2 who failed the first attempt year and who also fails a Repeat Year as a result of failing module(s) already passed a previous year, a pass for the year will be awarded by the Examination Board, provided the student achieves the Pas and Progression Standard for the year on the combined results from both years.

In the case of candidates choosing option 2 who had already passed or got honours in their first attempt year but who (i) fail the examination in a Repeat Year as a result of failing module(s) already passed in a previous year or (ii) fail to qualify for a higher class of honours at the second attempt, the original programme level judgement and associated marks will be awarded by the Examination Board.

#### Three Year Rule:

Candidates must pass/progress within 3 academic years of the date of first registration for Fourth Year, otherwise they cannot continue in the programme.

First Class: an aggregate of at least 1260/1800 marks (70% and above).

**Second Class Grade I:** an aggregate of at least 1080/1800 marks (60% and above but less than 70%).

Failed or non-attended modules are not taken into account in the computation of the aggregate. In cases where a student has passed extra credits (e.g. up to 65 credits for instance), modules with the lowest results are not taken into account in the computation of the aggregate.

### Exemptions:

All passed modules carry an exemption, which is limited to a period of 5 academic years subsequent to the award of the exemption.

### Supplemental Examinations:

Supplemental Examinations for Semesters 1 and 2 (Part 1) will be held in August (Autumn).

Please refer to the Book of Modules for requirements governing the Autumn Supplemental Examination for individual modules.

Note: For the Collaborative Industry Project, there is no Supplemental Examination. Students who fail to achieve the pass standard for the year at the Summer

Examination must repeat all failed/absent modules at the Supplemental Examination, where there is provision to do so and if not disallowed by the Examination Board, or in a Repeat Year (see below). Marks from all passed modules are carried forward to the Supplemental Examination.

# Repeat Year Examinations:

Students repeating the year may do so choosing whichever of the two following mechanisms best suits his/her requirements. Note: Students are eligible for the award of Honours in the first Repeat Year only.

Students retain exemptions, if any, and must repeat all failed/absent modules. In determining aggregation and the calculation of the award of honours, full marks obtained in modules passed at the Summer and Autumn Examination Boards in the first attempt year plus capped marks obtained in modules in Supplemental and Repeat Year Examinations are used.

Students may repeat the year taking the full 90 credits. In determining aggregation and the calculation of the award of honours, there is no restriction on the marks awarded for modules at the Summer and Autumn Examinations of the Repeat Year.

Modules taken at the subsequent Supplemental Examination are capped at the pass mark. Subject to capacity, all students - whether they have failed or passed - are allowed to choose this option in an attempt to improve their grade.

In the case of a candidate choosing option 2 who failed the first attempt year and who also fails a Repeat Year as a result of failing module(s) already passed a previous year, a pass for the year will be awarded by the Examination Board, provided the student achieves the Pass Standard for the year on the combined results from both years. In the case of candidates choosing option 2 who had already passed or got honours in their first attempt year but who (i) fail the examination in a Repeat Year as a result of failing module(s) already passed in a previous year or (ii) fail to qualify for a higher class of honours at the second attempt, the original programme level judgement and associated marks will be awarded by the Examination Board.

### Three Year Rule:

Candidates must pass within 3 academic years of the date of first registration.
